Delhi, India

PROFESSIONAL SUMMARY

Computer Science Engineer with strong proficiency in data analysis tools and techniques. Demonstrated ability to derive insights from complex datasets to drive business decisions. Skilled in statistical analysis, data visualization, and SQL, ready to contribute effectively to a data-driven team.

SKILLS

- **Programming Languages** : Python, SQL
- **Frameworks** : Pandas, Numpy, Scikit-Learn, Matplotlib, Seaborn, Machine Learning
- **BI Tools** : Power BI, Excel, Tableau, MySQL, PowerPoint
- **Platforms** : PyCharm, Jupyter Notebook, Visual Studio Code, Sublime
- **Soft Skills** : Report Building, Dashboard, People Management, Excellent Communication

PROJECTS

- **Bank Loan Analysis** aug-2023 - oct-2023
Tools: [MySQL, Tableau] 
 - Analyzed loan defaulters' impact on bank profits, revealing substantial losses from non-repayment.
 - Identified key factors causing high default rates and associated financial risks.
 - Proposed solutions to mitigate losses, improve credit management, and enhance profitability.
- **Pizza Sales Analysis** Nov-2023- Jan-2024
Tools: [Python, Tableau, MySQL] 
 - Analyzed pizza sales, identifying top and least-performing items, optimizing revenue, and refining staffing and inventory management for efficiency.
 - Assessed sales trends, implementing strategic improvements to boost profitability, enhance customer satisfaction, and streamline operational processes.
 - Evaluated revenue patterns and customer preferences to drive data-driven decisions, improving overall sales performance and operational effectiveness.
- **E-Commerce Sales** aug-2023 - oct-2023
Tools: [MySQL, Tableau, Python] 
 - Conducted detailed analysis of YTD and YoY sales, profit, and profit margins to assess overall business performance.
 - Identified top and bottom-performing products, optimizing sales strategies based on product performance insights.
 - Evaluated sales distribution across regions and states, driving strategic decisions for market expansion and resource allocation.

WORK EXPERIENCE

- **Unified Mentor**  Remote
october 2023 - May 2024 Data Analyst Intern
 - Analyzed complex datasets and delivered actionable insights, enhancing decision-making processes across projects.
 - Developed automated dashboards using Excel and Power BI, streamlining data visualization and reporting.
- **Company B**  Noida, India
Data Analyst Intern march 2023 - September 2023
 - Conducted data analysis to uncover trends and optimize performance metrics, contributing to strategic business decisions.
 - Built and maintained interactive dashboards using Tableau and Power BI, improving data accessibility and stakeholder reporting.

EDUCATION

- **MERI College of Engineering and Technology** July 2020 - July 2024
B.Tech Haryana, India
 - GPA: 7.2
- **CBSE Board** 2019-2020
Pre-University education Delhi, India
 - Grade: 85%
- **CBSE Board** 2017-2018
Secondary Education Delhi, India
 - GPA: 83.2%
